PROFESSIONAL SUMMARY

Frontend and software developer who builds responsive, intuitive web interfaces with HTML, CSS, JavaScript, React, Tailwind CSS and Bootstrap. Teaches frontend development at RIIT GLOBAL TECH, guiding learners from core concepts to portfolio projects. Holds a Software Development Certificate (PLP Academy) and a Responsive Web Design Certification (freeCodeCamp), studies Computer Science at Miva Open University, and is growing toward full-stack engineering with Node.js, Express.js, REST APIs and Supabase. Fluent in Arabic. Open to remote roles.

TECHNICAL SKILLS

FRONTEND DEVELOPMENT

HTML5 · CSS3 · JavaScript · React · Tailwind CSS · Bootstrap · Responsive Web Design

BACKEND DEVELOPMENT & APIS

Node.js · Express.js · REST APIs · Supabase

TOOLS & WORKFLOW

Git · GitHub · VS Code · npm · Browser DevTools

WEB DESIGN & CMS

WordPress · UI Implementation · Web Design · Website Customization

PROFESSIONAL SKILLS

Teaching · Technical Mentoring · Problem Solving · Communication · Collaboration · Continuous Learning

WORK EXPERIENCE

Frontend Development Tutor

2026 – Present

RIIT GLOBAL TECH

- Teach frontend fundamentals and practical coding techniques across HTML, CSS, JavaScript, Bootstrap, Tailwind CSS and React.
- Introduce learners to Git and GitHub for version control and collaborative workflows.
- Support hands-on assignments and web development projects, guiding students through debugging and problem solving.
- Help students build coding confidence and develop portfolio projects.

Frontend Developer

Ongoing

Independent Projects · Self-Directed

- Develop responsive, user-friendly web interfaces and translate design ideas into functional pages.
- Practise reusable components and modern frontend workflows.
- Explore backend integration and full-stack application development.
- Build personal and practical projects to strengthen technical skills.

SELECTED PROJECTS

AKAZA — Personal Developer Portfolio

IN DEVELOPMENT

Portfolio and personal brand website to showcase professional identity, skills, experience, projects and contact details. Planned: hero section, project gallery, live demos, responsive layouts and subtle animations.

Agritech Application

AGRICULTURAL TECHNOLOGY · CONCEPT

Application concept exploring digital tools for farmers and agricultural businesses, covering responsive interface design, agricultural information and dashboard concepts.

Zero Limit — Online Store

E-COMMERCE · CLOTHING & ACCESSORIES

Premium e-commerce brand with a minimal dark identity, focused on product presentation, product browsing and a responsive, brand-led storefront experience.

AJO.ng — Digital Contribution Savings

FINTECH · STARTUP CONCEPT (PLANNED)

Concept for coordinating private savings groups with contribution workflows, payment schedules, reminders and rotating payouts. Covers product design and user flows.

ADDITIONAL LEARNING

Python · C# · Full-Stack Development
